

3 Hidden Waterfalls Trail

Up and down, muddy and slippery: adventure and fun!

The Hidden Waterfalls hike allows you to experience three different and unique waterfalls along a beautiful trail through the rainforest. Two of these waterfalls allow the visitor to take a swim in the cool, clear mountain water. If you are looking for a hike that is not overly strenuous, this is the one!

Put on your hiking boots or sneakers and climb over boulders, hike uphill, hike downhill and take some breaks to rest and see unique birds and plants.
